**STATEMENT OF WORK
SYSTEM TWO CRYSTAL PROCUREMENT**

The contractor proposes to supply all engineering, labor, supplies and materials necessary to accomplish the following work:

1. Procure, test and pack for domestic air shipment the necessary crystals for forty (40) airborne and twenty-three (23) ground crystal sets for System Two, in accordance with the accompanying technical exhibit.
2. Two (2) kits of eighty (80) crystals each will be provided for each airborne and each ground unit; one kit of receiving crystals and one kit of transmitting crystals. Each kit provides sufficient crystals for eight (8) channel operation with ten (10) alternate frequencies per channel.
3. Sufficient crystal kits will be provided for a total of thirty-three (33) airborne and twelve (12) ground deliverable systems, plus crystals for the engineering model and the Seal Beach prototype, as well as four (4) pre-flight test sets, nine (9) base station test sets, ten (10) guard band receivers, and two (2) airborne and one (1) ground spare kits.

Crystals will be delivered with systems and the initial spares shipment, unless the contractor is directed otherwise.
